## Work Experience

### Netcracker Technology

Hyderabad

UI Team Lead

FEB 2022 - TILL

- Managing offshore team as UI Team Lead with activities related to distributing tasks/tickets, resolving blockers.
- Working on developing the frontend build with Angular and Typescript of "Du telecom" – Dubai application
- Working on optimizing and defect fixing of the UI services
- Being part of Development of CR's, defect fixing(SIT, UAT, Regression and Pre-prod defects), training junior developers, code reviews and design discussions with BA, creating and improving Process Improvements (Automation Scripts) wherever is possible.

### Tata Consultancy Services Private limited

Pune

SYSTEMS ENGINEER

MAY 2017- FEB 2022

- Worked on redesigning BMO Canadian bank application using Angular and Typescript to make the user experience smooth and more usable.
- Added new reusable components as part of the module that enhanced user experience and saved manual effort & code redundancy.
- Worked on creating ngrx store and improved the performance of the application.
- Worked on 15 different modules/projects & have been part of their successful production releases with zero defects.
- By implementing UI Unit testing automation PI we made \$10,000 CAD dollar savings for BMO.

### LTI

Pune

SOFTWARE ENGINEER INTERN

FEB 2015- JUNE 2016

- Worked on the development of E-commerce website (rakuten.com) and created features to enhance the user experience for smartphones.
- Translated designs and wireframes into a highly responsive user interface and reusable components using React.js.
- Connected Back-End APIs to display data using the Custom Components, Library Components, and Redux.

## Projects

### Technical – Learning

- [ReactJs](#), [NodeJs](#)

COLLECTION OF BLOGS OF LATEST TECH FOR DEVELOPERS

[Github](#)

- Developed a single page application using React.js, Node.js, and Firestore.
- Used static site generation resulting in faster load time and increasing efficiency.
- [blogs.babumiya.tech](https://blogs.babumiya.tech)

### My Portfolio

[ReactJs](#)

PORTFOLIO APPLICATION

[Github](#)

- Designed a personal portfolio website to store all of my technical information and personal projects which I have worked on.
- Used React-Router to turn the application into Single Page Application.
- [babumiya.profile](https://babumiya.profile)

## Technical Skills

### Strongest Areas

Angular, ReactJs, Data Structures, Algorithms

### Programming Languages

JavaScript, Typescript

### Libraries/Frameworks

Angular, React.js, Express.js, Next.js, Typescript, Git, Node.js, HTML5, CSS3, Bootstrap, Tailwind

### Database

MongoDB, Firebase, PostgreSQL

### Build Platforms

Jenkins, Vercel, Heroku

## Education

### CMR College of Engineering and Technology

Hyderabad, India

B.TECH IN Electronics & Communications Engineering

June. 2010 - May. 2014

- 8.01/10

## Process Improvements

### UNIT TESTING AUTOMATION | TCS | Netcracker

Implemented script in JavaScript to setup multiple spec files as part of UI unit testing using karma-jasmine frame-work, which can be used across all angular2+ projects and can be implemented across any organization. It saves on an average 150+ hrs. /project developer manual effort.
