Projects

My Portfolio — *React.js*

PORTFOLIO APPLICATION — *Github*

- Designed a personal portfolio website to store all of my technical information and personal projects which I have worked on.
- Used React-Router to turn the application into Single Page Application - **babumiya.profile**

Technical Skills

Strongest Areas	Data Structures, Algorithms
Programming Languages	Javascript, Typescript
Libraries/Frameworks	Angular, React.js, Express.js, Next.js, Typescript, Webpack, Git, Node.js, HTML5, CSS3, Bootstrap, Tailwind
Database	MongoDB, Firebase, PostgreSQL
Platforms	Vercel, Heroku

Education

CMR College of Engineering and Technology — *Hyderabad, India*

- B.TECH IN Electronics & Communications Engineering - 8.01/10 — *June. 2010 - May. 2014*

Process Improvements

UNIT TESTING AUTOMATION | TCS | Netcracker

Implemented script in JavaScript to setup multiple spec files as part of UI unit testing using karma-jasmine frame-work, which can be used across all angular2+ projects and can be implemented across any organization. It saves on an average 150+ hrs. /project developer manual effort.
