SKILLS
PROGRAMMING:
Over 5000 lines:
JavaScript • Typescript • HTML

Tools:
Npm, Git-Bash, Git-Hub,
Figma, GraphQL, Jira (TMS),
VScode, Jenkins-CI, Intellij
IDEA, SVN Tortoise, Crucible,
Gitlab

Front-End Frameworks:
Angular, React JS, Next Js

HOBBIES
Coding, Movies,
Product Ideas (5)

SUMMARY
Working as Senior Software Developer in front end technologies like Angular with **7.8+ years** of experience. Well-versed in latest programming technologies like Angular,ReactJs, HTML5, JavaScript, Typescript, CSS.

WORK EXPERIENCE

NETCRACKER TECHNOLOGY | SENIOR SOFTWARE ENGINEER
Feb 2022 - Present | Hyderabad, IND
- Developed and implemented CR's for customer and admin applications using Angular technology for Du telecom - Dubai & Rakuten - Japan.
- Created **3 PIs** (Process Improvements) can be used across the angular projects.
- Development of CR's, defect fixing(SIT, UAT, Regression and Pre-prod defects), training junior developers, code reviews and design discussions with BA, giving client demo and creating and improving Process Improvements (Automation Scripts).

TATA CONSULTANCY SERVICES | SYSTEMS ENGINEER
May 2017 – Feb 2022 | Pune, IND
- Implemented payment management, cash-flow forecasting modules for BMO customer banking application - Canada.
- Worked on **15 different modules/projects** & have been part of their successful production releases with **zero defects**.
- By implementing UI Unit testing automation PI we made **$10,000 CAD dollar savings for BMO** in 2021.

ECENTRIC SOLUTIONS | SOFTWARE ENGINEER
Aug 2016 – Dec 2016 | Hyderabad, IND
- Worked on UI for wireless connections of the AT&T customer web app.

L&T INFOTECH | SOFTWARE ENGINEER TRAINEE & SOFTWARE ENGINEER
Feb 2015 - June 2016 | Pune, IND
- Worked on development of UI project which focuses on the customer service ticketing system for Citi bank application - USA.

RESEARCH & PROCESS IMPROVEMENTS

UNIT TESTING AUTOMATION | TCS | Netcracker
Implemented script in JavaScript to setup multiple spec files as part of UI unit testing using karma-jasmine frame-work, which can be used across all **angular2+** projects and can be implemented across any organization.
It saves on an average **150+ hrs. /project** developer manual effort/time.

TRANSLATION JSON, TERMS & AUTO E-MAIL | TCS | Netcracker
Translation.json (EN, JA) & terms.en, terms.ja files creation & automatic status/leave-management email generation using (JavaScript, VBScript, and windows task scheduler).

AWARDS/CERTIFICATES

Year		
2014	NSE	NCFM Certificate
2014	Basic	Basic Agile & SQL Certificate
2010	AIEEE	All India Engineering Entrance Rank (**10,105 top 8%**)
